

Results Announced from the 23rd Quality Fair on Protection Device/Protective Gear

- Occupational Safety and Health Certification Institute (OSHCI, Director General: Bong-ho Kim) announced the results from the 23rd Quality Fair on Protection Device/Protective Gear.
- Celebrating the 23rd year of the existence, this quality fair has been held annually with an aim to effectuate the efforts for prevention of occupational accidents by discovering outstanding safety products and expanding the market.
 - 8 products* selected for awards will be honored with a plaque and prize money, including the Minister's Award of Employment and Labor and KOSHA President Award.
- * 8 products from Shinhan Electronics (overload protective device), Geumgok Precision (safety bar), OSCG Co. (compound cable glands), Seongan Save (safety bar), etc.

Subject	Winner	Plaque	Prize Money
Grand Prize	1 product	MOEL Minister's Award	₩2 million
Innovation Award	1 product	KOSHA President Award	₩1.5 million
Outstanding Award	2 products		₩1 million each
Runner-up Award	4 products		₩500,000 each

- Honored with the grand prize, the overload protective device for mobile crane from Shinhan Electronics is a product featured with a function capable of detecting working conditions, such as deceleration and speed control, during the operations either exceeding operating radius or on warning sections.
- The safety bar from Geumgok Precision recognized with the Innovation Award for Occupational Accident Prevention is a

product of which wire is not removed by shocks from falls and which has enhanced convenience and reduced workers' fatigue level because of its light weight after being made with polycarbonate materials.

- ☐ KOSHA exhibits these excellent products at the exhibition event for the 2019 Occupational Safety and Health Week held at the Seoul KOEX between July 1st and 5th in order to propagate the superb quality of those products.
 - Moreover, following completion of the event, KOSHA plans to display the products at the KOSHA Exhibition Hall for 1 year and introduce them through the promotional booklets and KOSHA's official website.
- ☐ Director General Kim of OSHCI said, "The institution is determined to continue making efforts to prolong the development activities of outstanding protection device and protective gears stemming from this quality fair." (END)
